

Bitcoin Rock-Paper- Scissors

exploration of

How to we buy things with Bitcoin?

Many consumers are not entirely sure what bitcoin is or what to do with it...

How do we change that?

A game can help users learn when they might choose Bitcoin.

We leverage existing data from Blockchain to create a game / social experiment.

How do we buy and sell things Bitcoin?

We can exchange goods and money, therefore...

We can exchange goods and Bitcoin

We can exchange Bitcoin and money

The price of \$ € ₳ and other stuff do not change perfectly in tandem

Which one is better and when?

A Game of Rock Paper Scissors

the price of Bitcoin vs US Dollar changes from day to day and year to year

A Game of Rock Paper Scissors

In our game, players hold a portfolio roughly based on the Bitcoin currencies, the Euro and the US Dollar

Players can trade currencies individually between each other with prices based on either mutual agreement or on the real-time exchange rates

Conclusion of game: players learn exchange rates are not perfect and constantly fluctuating. Can help stabilize their position by trading into or away from Bitcoin
